The Lucas Switchgear programme delivers replacement switches and electrical components for passenger, agricultural and commercial vehicles. With over 100 years of Original Equipment and aftermarket experience in the sector, the Lucas Switchgear offering is the obvious choice.

Switchgear from a World Renowned and Trusted Brand

A Lucas switch can be fitted with the confidence that it is manufactured to the highest standards, to Original Equipment specification and is able to withstand the toughest of operating environments.

That is why the Lucas programme is the first choice for off-road vehicle specialists and is chosen for military vehicles throughout the world.

In the unlikely event of an application required not currently being catered for, Lucas continuously develops the range by applying priceless expertise and knowledge to deliver a bespoke product of the quality level expected from the industry’s most famous brand.

With support from Lucas’ switchgear experts, otherwise obsolete or scarcely supplied products are made available to the market.

Unbeatable Service

The outstanding customer support provided by Lucas will ensure that bulk enquiries are serviced effortlessly. Whether it be scheduling for production line supply or drop shipping, Lucas’ logistical expertise will come to the fore and offer a seamless solution.

From enquiry to delivery, Lucas experts will engage with the customer to ensure all products are delivered on time and within the specified budget.

The Driving Force Behind The Lucas Brand

The Lucas brand is one of the leading forces in the automotive aftermarket, delivering a broad range of premium quality products. Building on a heritage of over 125 years in the automotive industry, Lucas now boasts market-leading vehicle parc coverage for Automotive Bulbs, Batteries, Engine Management & Ignition, Lighting & Mirror, Rotating Electrics, Switchgear, Warning & Safety, Window Regulators and Wiper Blades. The Lucas brand represents superior engineering and service excellence throughout its product portfolio.

Customer demand for quality products, keen pricing and shorter lead times is met with a constant investment in product range development and the highest quality manufacturing, backed by online cataloguing and first class marketing.

The success of Lucas is built upon a deep commitment and understanding of the automotive aftermarket’s needs and demands, which allows the brand to meet and exceed customer expectations.
