Lucas Warning & Safety launches LED excellence

In what is quite literally a news-‘flash’, **Lucas Warning & Safety**, a division of the aftermarket’s number one electrical provider **Lucas Electrical**, have announced the further enhancement of its market-leading programme with the introduction of a new **Ultra-LED range of ancillary LED lighting products**.

The latest offering further compliments the product portfolio which includes the increasingly popular Ultramaster series of LED lightbars and LED beacons. Launched at the Commercial Vehicle Show 2006, the brand new range includes:

Quad Blitz – A range of surface mounted LED’s with a pre-programmed quad flash pattern. Available in Amber, Blue and Red in 12 and 24v.

Syncro Blitz – Compact surface mounted high intensity LED’s with three programmed flash patterns and synchronisation option. Available in Amber, Blue and Red in 12 and 24v.

Ultra Blitz – A 7” round high visibility surface mounted LED, popular for motorway and maintenance applications with eight variable flash patterns. Available in Amber and Blue in 12 and 24v.

Ashley Stevenson, Marketing and Product Manager of Lucas Warning and Safety said, “Our latest range of LED warning strobes and lighting accessories use the most up-to-date technology available and can vastly improve the safety and visibility of vehicles during wintertime and adverse weather conditions. The Warning & Safety programme supports the ethos of leadership and excellence that the historic Lucas brand represents, whilst our direct supply structure ensures that we deliver an effective, responsive service to the aftermarket.”

Cont/d ...

Lucas' comprehensive Warning & Safety programme includes 100 Lightbar references, an extensive range of Rotating & Xenon Beacons, Reversing Alarms, Worklamps and CCTV Camera Systems.

Lucas delivers an unrivalled choice of superior quality, market-leading electrical programmes to the UK aftermarket with other ranges including Bulbs, Lighting, Batteries, Door Mirrors, Starters and Alternators, Glow Plugs and Engine Management Systems.
