Lucas Lighting and Door Mirrors through FPS Distribution

The Lucas division of Lighting & Mirror has formed a partnership with distribution giant Ferraris Piston Service (FPS), to supply the comprehensive range of market-renowned Lucas Lighting & Mirror Products.

The Lucas Lighting range includes some 1200 part numbers across a variety of types including headlamps, rear lamps, fog lamps and signal lamps, bringing to the market one of the most extensive all makes ranges with vehicle parc coverage of 80%. The Door Mirror range currently consists of 751 complete mirrors and 408 spare parts (replacement glass and covers) providing vehicle parc coverage approaching 80%. Extensive product range developments are planned throughout 2008.

FPS is, without question, the largest, most progressive and most successful automotive parts Wholesale Distributor in the UK, with branches countrywide providing a renowned reliable Same-day distress service. FPS is complemented by WDS, a trading division of FPS, equipped to handle an overnight stock order service.

A welcome pack is available outlining this new distribution channel and explaining the ordering process. Please ask for a copy from Elta Lighting or your local FPS branch.
